About Santdeep Group

Santdeep Group, founded in 2017, is a trusted supplier of high-quality ready-mix concrete, serving the construction industry across key locations and surrounding areas. We are proud to deliver durable and consistent ready-mix concrete solutions, customized to meet projects of all sizes—residential, commercial, or industrial.

With access to advanced technology and industry expertise, we follow a customer-first approach, ensuring the delivery of quality concrete on time. From a single residential foundation to large-scale developments and infrastructure projects, our concrete meets all industry standards for strength, performance, and sustainability.

Premium Ready-Mix Concrete for Every Project Need

Santdeep Group is committed to delivering high-performance ready-mix concrete solutions tailored to diverse construction requirements. Our expertise allows us to support projects of any scale with precision, reliability, and efficiency.

We ensure every mix is engineered to provide durability, consistency, and superior structural performance, making us a dependable partner for modern construction needs.

Our Projects

A Santdeep Group is a professional supplier of high-quality ready-mix concrete, dedicated to delivering consistent and durable solutions for a wide range of construction projects.

We provide customized concrete solutions to meet diverse project requirements. Contact us to discuss your specific needs.

Type of Concrete

Regular Concrete with Flyash

M7.5, M10, M15, M20, M25, M30, M35, M40, M45, M50

Regular Concrete with OPC

M7.5 OPC, M10 OPC, M15 OPC, M20 OPC, M25 OPC, M30 OPC, M35 OPC, M40 OPC, M45 OPC, M50 OPC

High Strength Concrete

M40, M45, M50, M55, M60, M65, M70

Post-Tensioned Concrete

M25 PT, M30 PT, M35 PT, M40 PT, M45 PT, M50 PT

SCC Concrete (Self-Compacting Concrete)

M25 SCC, M30 SCC, M35 SCC, M40 SCC, M45 SCC, M50 SCC

Free Flow Concrete

M25 FF, M30 FF, M35 FF, M40 FF, M45 FF, M50 FF

Special Concrete

- Colour Concrete
- Light Weight Concrete
- Rain Water Harvesting Concrete
- Stamped Concrete
- Steel Fiber Concrete
- PP Fiber Concrete
- Early Strength Concrete

Our Services

Industrial Construction Turnkey Solutions

At Santdeep Group, we specialize in delivering comprehensive industrial construction turnkey services tailored to the unique requirements of industrial clients. Our turnkey solutions provide a seamless experience from concept to completion, ensuring every phase of your project is managed with expertise, quality, and efficiency.

Commercial & Residential Project Development

We provide complete construction solutions for commercial and residential projects, ensuring high-quality execution, timely delivery, and cost-effective planning.

Project Execution

At Santdeep Group, our project execution services are designed to turn your vision into reality with precision and efficiency. We manage every stage of the construction process—from initial design to final delivery—ensuring seamless execution and superior quality outcomes.

Our experienced team of project managers, engineers, and skilled professionals is committed to excellence at every phase.

In-House Quality Control Lab

- Strong foundation to encourage the continuous improvement of internal processes of the company and to support the company in achieving its strategic goals.
- Reducing the probability of lag in carrying out product deliveries to client.
- Boost the production process through continuous improvement.
- Evaluate the quality checking system based on established industry specific and International standards.
- Concrete mixes are supplied only after exhaustive laboratory and plant trials.
- Regular testing of incoming raw materials
- Sampling and testing of concrete as per Codal stipulations
- Daily Sampling and testing

Development Projects

We support development projects with a strong focus on quality, innovation, and performance. Our expertise ensures reliable construction solutions across all project types.

Boom Placer Services

Santdeep Group provides advanced boom placer services for efficient, accurate, and safe concrete placement. This service is ideal for:

- High-rise buildings
- Large-scale industrial projects
- Commercial construction
- Hard-to-reach site areas

Our modern equipment ensures precise delivery even at great heights and long distances.

Stationary Pumps

We offer high-performance stationary pumps for continuous and efficient concrete transportation. These are ideal for:

- Foundations
- High-rise construction
- Large infrastructure projects

Our technology ensures smooth and consistent concrete flow throughout the project.

Stone crusher capacity 250 TPH VSI

Santdeep Group also provides in-house stone crushing solutions, ensuring a steady supply of high-quality raw materials for construction projects, maintaining consistency and cost efficiency.

Machinery's count For **RMC PLANT**
